

Need **more** storage capacity?

You could add to your existing storage *but...*

No guarantee of performance increase

Restrictive commercial and financial options

Potential increased maintenance costs

A better way to **grow**

Supercharge your upgrade...

Accelerate applications

Maximize existing storage investments

Drive data placement across all storage with AI

Simplify storage management

Ease any required data migration

Buy an **IBM FlashSystem® 5200, 7200 or 9200/R** and virtualize your existing storage at no additional cost.* Now benefit from increased capacity and performance within a new, optimized single pool of storage.

Modernize and accelerate **ALL** of your storage

Your existing storage

IBM FlashSystem

AI-driven automatic data placement
